

Make sure you include the required research and a picture should be included. Your text should have:

- 1-2 sentences: naming the project, describing what and where it is (as if you were writing it for someone who has no idea)
- 1-2 sentences: naming the New Deal agency that created it and describing the agency
- 1-2 sentences: describing the benefit to the community and the status of the project today

And remember, Mr. Wilson wants people to actually read and enjoy these plaques so keep that in mind! What kind of displays keep you interested?

SEE EXAMPLES BELOW

LYLBURN DOWNING BALL FIELD

The Lylburn Downing ball field was built during the Great Depression, as part of the New Deal. It is located next to Lylburn Downing Middle School in Lexington, VA. It was built as part of the Civil Works Administration Project, created November 9, 1933. The CWA ball field provided entertainment for people and, while it was getting built, it also provided many jobs for jobless people in the community.

**** If you cannot visit your project or include a picture, you need to let me know BEFORE it is due**
